**\* Planning for inclement weather or other emergency districtwide school closings:** If the district must close schools for *one day* due to inclement weather or an emergency, the last day of school will be June 15. If the district must close for *more than one day*, it must either apply to the state for a waiver to allow school to continue into the week of June 18 or remove days from spring break. If the district applies for a waiver and is denied, this would necessitate the removal of days from spring break. Without a state waiver, spring break would be shortened by the number of days required between March 26 and 29.

\*The distribution window for **final report cards** will shift by one day for each snow day used.
